ATTACHMENT: F COMMENTS OF RESIDENT ADVISORY BOARD AND PHA RESPONSE

There were no corporate comments submitted to PHA by Resident Advisory Board. An individual RAB member made one comment privately to the executive director, but wished not to be identified. That comment was a statement that HUD should include money for excess water usage in Capital funds so that residents could use water to wash cars, fill wading pools, water plants and conduct other outdoor water activities as often as they wished. This comment was presented to the Board of Commissioners. The Board did not make any changes to the plan to accommodate this comment, but agreed to explore the possibility of individual meters within the coming year.

ATTACHMENT: G FOLLOW UP PLAN TO RESIDENT ASSESSMENT SURVEY

The Authority determined that the Resident Assessment Survey for FY 2001 yielded information that suggested that some of its residents did not perceive that the Authority provided enough information about their leases and that some of its residents perceived that Authority staff were rude/unprofessional in the conduct of Authority business. In its history, certainly since January of 1996, the Authority has sincerely and actively endeavored to provide extensive information to all of its customers regarding its rules, regulations, procedures, documents, policies, activities, finances, programs, and so on. We have used a wide variety of means and methods to ensure delivery/dissemination of this information. The Authority is and always has been diligent in training its personnel regarding interaction with its customers. The staff has always been small and thus easily monitored. Rude/unprofessional conduct has never been tolerated. It has neither been observed by management nor reported to management or to the Board of Commissioners. In addition, the Authority has actively pursued input from its residents and participation by its residents in all phases of its planning and policy development activities.

Thus, it is the Authority's position that it cannot adequately identify any failures in these areas of concern on the basis of the information available. It is equally apparent that it would be unrealistic to alter policies, procedures, methods, etc. to counter these negative perceptions without eliciting more input from its resident population. To obtain this information, the Authority will engage an independent researcher to make individual visits to resident homes. The results of that research will be presented in the form of a report to the management. The report will be devised in such a manner as to protect the anonymity of individual residents. Subsequent to this activity, the Authority will conduct a resident meeting in which the report will be presented and public comment will be invited and collected, and the Executive Director will conduct individual visits with as many residents as indicate a desire for such a visit. The Authority will use the esults of these activities to determine if changes in its methods are necessitated, and if necessitated, to determine what those changes will be. As has always been the case, the Authority will endeavor to engage residents in the planning and development of any changes indicated by this process. It is also the Authority's intent to us e Capital Funds for FY 2003, Line Item 1408, Management Improvements, to conduct these activities.
